

Bellanotte

Bellanotte

mattresses made for love

*There is no exquisite style, nor delicate line,
nor beautiful color; in fact what is beauty but
the truth which becomes visible.*

Auguste Rodin

body care

The special design and the open-cell structure of **BodyCare**[®] foam provides excellent ventilation, perfect maintenance and optimal support for the body. 3D profiling is 100% waste-free and precise technology which forms elastic surfaces, even or separated in zones according to the specificity of the body. Massaging elements stir the upper skin layer and improve the blood circulation

Zeolite, added to the formula of the **ZeoFoam**[®], is a porous mineral strong anti-oxidant and natural detoxifier which helps for excretion of the stored harmful radicals from the organism. Thanks to this ingredient **ZeoFoam**[®] does not cause sweating and because of this the skin feels comfortable and at rest. With its strong antibacterial features zeolite prevents the development of small microorganisms and at the same time improves the elasticity of the foam.

Zeo foam

aqua memory

With its elasticity and breathing cell structure **AquaMemory**[®] foam adapts to the shape of the lying on the mattress body and provides perfect relaxation of the organism. The special design of the foam allows better ventilation, gentle maintenance and optimal support. **AquaMemory**[®] enfolds the body and the air-filled cells form an air cushion in the inside of the mattress which provides excellent comfort during sleep.

The main advantages of the three-dimensional **3D mesh fabric** are the superb ventilation and the insulation features, strength and durability. It is environmental, recyclable, antibacterial material, which allows free air circulation.

The orthopedic system **MultiPocket** provides the best support of the spinal column and the whole body with a number of ventilation channels which does not allow bacteria and microorganisms growth. The individually packaged springs work independently and delicately support the body by adapting to every movement during sleep.

multi pocket h1

180mm, ϕ 50mm, d1,7mm

Intelligent technology **iSprings** effectively responds to different pressure, ensuring better support where it is necessary, without the surface being too soft or too hard. **iSprings** allows the muscles to relax in their natural posture during sleep as the springs adjust instantaneously to the movement of the sleeping person.

50% cotone, 50% microfibra
riempimento di cotone 700g
multipocket h180mm, ϕ 50mm, d1,7mm
nanosprings h40mm, ϕ 45mm, d7mm

The cinamon is one of the freshest herbs which soothes and refreshes, and its natural antibacterial features are widely used. BodyCare[®] foam with cinnamon is an innovative development requested by Bellanotte. It has a slight cinnamon flavoring and increased orthopedic effect.

Natural cotton wadding consists of 100% natural cotton fibers and offers the body a bouquet of sensations – gentle touching, warming embrace, natural caress. The softness and the freshness of the cotton contribute for the full relaxation and complete comfort.

multi-pocket h180mm, ϕ 50mm, d1,7mm

TECHNOLOGY iSprings

- Masterly handmade
- 100% natural materials without foam
- Intelligent iSprings technology, with 400 springs per square meter.
- Pure Belgian Linen
- Bulky wadding of 100% cotton

Proportion, harmonic shape, innovative technology, functionality, natural materials, handmade – everything put together on this unique mattress. The miniature nanoSprings create the initial feeling of gentle touch and luxurious surface, and the multi-pocket technology ensures stable support where necessary.

modello **Bellissima**

iSprings

Textile: quilted high quality fabric with pure Belgian linen

Structure: multipocket, nanosprings, natural cotton wadding, textile Linen Soft

The ideal solution for connoisseurs of ergonomic comfort of the springs and those who appreciate classic mattress design. With core of multipocket, the most orthopedic ecologic and lasting system for sleep which ensures perfect support for the spinal column with near 1000 independent points of support and elegant layer memory foam for softness and gentle touch to the body.

modello Carezza

quilted case of high quality textile with pure Belgian linen

Memory foam

Core of 9-zone multipocket

3D profiled high resilience foam

Breathing 3D mesh fabric

Exquisite and innovative model, finished with a case of original Belgian textile, with extremely harmonic shape. The breathing 3D mesh fabric allows the free movement of the air in the core of the mattress and the profiled zones contribute for the maximum ventilation and the better maintenance and distribution of the body weight. Thanks to those better absorption of the moisture is achieved and an excellent thermal comfort is created.

modello Perla

quilted case of high quality textile with pure Belgian linen

Memory foam

Core of BodyCare® foam

3D profiled high resilience foam

Breathing 3D mesh fabric

An elegant model with splendid contemporary design made of combination of foams for perfect maintenance and optimal body support. Reversed double profile allows the body to “breathe” and the dynamic zoning provided by it ensures full comfort of the body in every position. The upper layer is enriched with the innovative material AquaMemory[®], for more tangible softness and comfort.

modello Portofino

quilted high quality fabric
with pure Belgian linen

AquaMemory® foam
with cinnamon

Core of BodyCare® foam

3D profiled foam

Inner cotton case

A real gem, inspired by the provincial south which promises a combination of different sensations. Following the modern trends the model ensures optimal support and good comfort. The core of HR foam achieves extreme orthopedic hardness and good support while the profiled soft layer gently massages the skin and thanks to the inert material Memory Foam no points of pressure and tension are created.

modello Toscana

quilted case of high quality textile with pure Belgian linen

 <p>body care</p>	 <p>HR</p>	 <p>aqua memory</p>
 <p>3D</p>		
		 <p>h ± 18</p>

With its clear silhouette the model is perfect addition to the bedroom suite. Designed with high quality ZeoFoam® with smooth and elegant surface this modern mattress involuntarily attracts and creates the impression of splendor and luxury. The soft side is solved with thermosensitive material – memory foam which follows the curves of the body and ensures support.

spirit of nature
ZEOLITE & SHUNGITE

- Zeolite** – the stone of life, declared the mineral of the 20th century by the World Scientific Organization
- a powerful detoxifying tool, helping the protection against free radicals;
 - absorbing properties against radioactive pollution and navy metals;
 - It helps regulating the biochemical balance of the body;
 - stabilises the immunity function;
 - reduce the allergy symptoms;
 - the only mineral, which helps to reduce profuse sweating.

modello Mamma Mia

AquaMemory® foam in the quilted fabric, enriched with shungite powder.

Profiled BodyCare® foam, enriched with zeolite powder.

NanoSprings™ technology.

Effective support for the body.

High quality textile with pure linen Pure Belgian Linen.

Two-sided feeling of comfort and various levels of firmness.

Environmental technology.

In Mamma Mia mattress you will find excellent and different solution for your sleep.

The AquaMemory® foam, enriched with shungite is embedded in the upper layer of the mattress in order to increase the impact on the body. Known as a stone-comforter, shungite absorbs the negative energies and restores the energy balance. It protects from harmful electromagnetic fields and geopathogenic zones.

The profiled BodyCare® foam, enriched with zeolite powder, helps in regulation of the biochemical balance of the body.

The established construction is a cutting edge in the world of mattresses and the best technologies in the production of polyurethane foam and springs are rooted in it: using of vacuum in the making of polyurethane and nanoSprings™ technology.

modello **Ti Amo**

AquaMemory® foam in the quilted fabric, enriched with shungite powder.

3D profiled BodyCare® foam, enriched with zeolite powder.

Elastic BodyCare® foam, enriched with zeolite powder.

Effective support for the body.

High quality textile with pure linen Pure Belgian Linen.

Two-sided feeling of comfort and various levels of firmness.

Environmental technology.

The elastic BodyCare® foam in the core of the Ti Amo model secures perfect support for the spine. Enriched with zeolite powder, the foam protects the body from free radicals and sweating. The special 3D profile wraps the core and creates natural dynamic zoning of the mattress and maximum ventilation. The inverted profile of BodyCare takes the pressure and redistributes it with the help of tiny elastic hills which reacts even to the slightest movement. This means that you do not have to consider the mattress zones, but just the opposite- the zones themselves adjust to the position of body in bed. AquaMemory® foam, enriched with shungite is embedded in the upper layer of the mattress zones in order to increase the impact on the body. Known as a stone-comforter, shungite absorbs negative energies and restores energy balance. It protects from harmful electromagnetic fields and geopathogenic zones.

modello Perche No

AquaMemory® foam in the quilted fabric, enriched with shungite powder.

Elastic BodyCare® foam, enriched with zeolite powder.

Effective support for the body.

High quality textile with pure linen Pure Belgian Linen

Two-sided feeling of comfort and various levels of firmness.

Environmental technology.

The elastic BodyCare® foam in the core of the Perche No model secures perfect support for the spine. Enriched with zeolite powder, the foam protects the body from free radicals and sweating. Zeolite helps for better comfort and relax. AquaMemory® foam, enriched with shungite is embedded in the upper layer of the mattress zones in order to increase the impact on the body. Known as a stone-comforter, shungite absorbs negative energies and restores energy balance. It protects from harmful electromagnetic fields and geopathic zones.

AquaMemory

Topper is the perfectly solution for real comfort.

AquaMemory® foam is with unique formula which totally improves the sensation from the surface of the mattress – every movement is engulfed and the tension is evenly distributed as the body is left to enjoy the full recovering repose.

modello AquaMemory

quilted high quality fabric
with pure Belgian linen

core of AquaMemory® foam

Topper Bellanotte – a modern and elegant way to correct the feeling and the comfort of the mattress. As an additional layer it eliminates the residual tension and creates the perfect surface for a calm and healthy sleep.
